As a leading art museum in Michigan, the Flint Institute of Arts offers exciting opportunities to support critical thinking, creativity, and visual literacy skills with our homeschool programs. In light of the coronavirus outbreak, homeschool programs will be virtual this year. Live virtual learning experiences will be offered on Monday mornings for all age groups. In addition, web-based gallery lessons and studio demonstrations will be available to supplement learning activities and for those who are unable to attend the live virtual experiences. Artmaking lessons will utilize materials readily available at home. Online options for purchasing specialized materials will be provided as well.

Our programs are designed to help students:

- Develop observation and critical thinking skills through discussions of works of art.
- Deepen understanding of artistic techniques, tools, and media.
- Investigate ways in which visual art and images convey the human experience.
- Engage in conceptual, imaginative, and creative play.

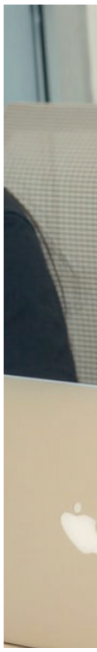
Students explore the FIA galleries and special exhibitions virtually to discover how artists communicate with visual images. Hands-on skills and techniques related to a wide variety of media including drawing, painting, ceramics, sculpture, and printmaking are developed through artmaking experiences.



3-Part Workshops | Ages 6 & Up
Mondays | 9:30a-11:30a
$15 per program; $90 for the series
See dates below

In-depth 3-part workshops are designed to help students develop art skills. We'll explore how artists communicate through visual images and hone visual art making skills as we create our own artworks and communicate things about ourselves and the world around us.
