# what is the Flint Print Club?

The Flint Print Club is a collective of print-enthusiasts from collectors to makers, formed to celebrate printmaking through unique and exclusive programming – including regular commission of original fine art prints by contemporary artists.

The club was established in 2007 to develop connoisseurship among its members and educate the general public about prints and printmaking. In 2024 the club's programming evolved to include more opportunities for members to engage directly with artists actively working in the field.

## benefits of membership
