

The Flint Institute of Arts is pleased to offer virtual programs for PreK-12 classes. These programs include web-based virtual tours exploring works from the museum's permanent collection and guided online art making activities facilitated by the FIA's education staff. **Art kits containing art supplies used in the art making activities are available for schools in Genesee County.**

Our programs are designed to encourage active learning and engage students in careful observation and the development of critical-thinking skills. Live virtual learning experiences can also be arranged. To schedule a program, **please call the Education department at 810-237-7314 or email education@flintarts.org.**

Fees

Web-based programs: \$5 per student (discounts available)

Live programs: \$5 per student (discounts available)

Exploring Materials (Ages 3-5)

This virtual program guides children to explore the creative potential of a variety of materials including oil pastels, watercolor, found objects and modeling compound. After exploring these materials, children make intentional choices about which materials to use when creating their own artwork.

Animals in America (Grades K-4)

This virtual program looks at realistic and abstract images of animals. Art projects include drawing an animal from observation and making an abstract collage using animal shapes. The program includes a virtual tour of several artworks in our collection and videos demonstrating the art making activities.
