

Stained Glass

Directions

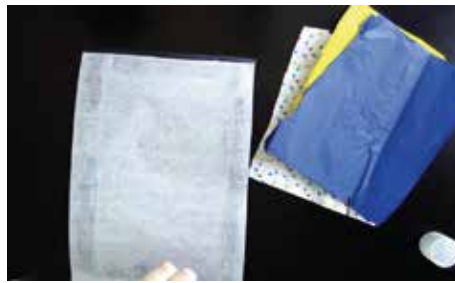

Watch the video at
flintarts.education/virtual

Materials

Tracing paper
Tissue paper
Glue stick
Scissors
Construction paper strips

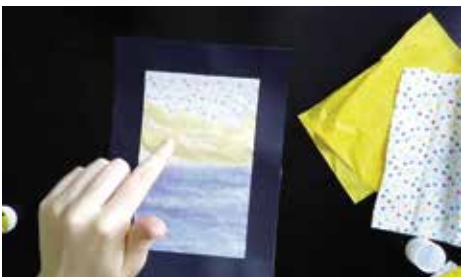

1. Glue construction paper strips onto the edges of the tracing paper to create a frame.

2. Flip the tracing paper to the back.

3. Tear tissue paper and glue it to the back of the tracing paper in a design that is interesting to you.

4. Flip your stained glass back to the front and check to see if you want to add anything else to your design.

5. Hang your stained glass in a window with a lot of sunlight to see your design come to life.
